

Payroll – RTI Factsheet

Following on from our Payroll – The Basics Factsheet we look at the process by which you have to send your payroll information to HMRC. RTI is Real Time Information and was introduced in 2013 being announced as ‘the biggest shakeup of the Pay As You Earn (PAYE) system in nearly 70 years!’ As detailed in the Payroll – The Basics Factsheet there are penalties for not submitting RTI.

RTI

Under RTI, employers or their agents are required to make regular payroll submissions for each pay period during the year, detailing payments and deductions made from employees each time they are paid. There are two main returns which an employer needs to make which are detailed below.

Full Payment Submission

The Full Payment Submission (FPS) must be sent to HMRC **on or before** the date employees are paid. This submission details pay and deductions made from an employee. The FPS must reach HMRC on or before the date of payment of the wages to employees.

Employer Payment Summary

Employers may also have to make a further return to HMRC each month, the Employer Payment Summary (EPS) to cover the following situations:

- where no employees were paid in the tax month
- where the employer has received advance funding to cover statutory payments
- where statutory payments are recoverable (such as Statutory Maternity Paternity or Shared Parental Pay) together with the National Insurance Compensation payment;
or
- where CIS deductions are suffered which could be offset (companies only).

HMRC will offset the amounts recoverable against the amount due from the FPS to calculate what should be payable. The EPS needs to be with HMRC by the 19th (or the last working day before) of the month to be offset against the payment due for the previous tax month.

Payments to HMRC

Please bear in mind that under RTI HMRC are aware of the amount due on a monthly/quarterly basis. This will be part of the information reported to HMRC through the FPS and EPS. HMRC will expect to receive the PAYE and NIC deductions less the payments each month or quarter (small employers only).

Year end procedures

At the end of the tax year a final FPS or EPS return must be made to advise HMRC that all payments and deductions have been reported to HMRC.

Some further complications

Wages

Under RTI it is not possible to put through wages at the year end of the business and assume this has been paid throughout the year, for example, to utilise a family member's National Insurance lower earnings limit which gives them a credit for the State Pension and statutory payment purposes.

Wages should be paid regularly, and details provided to HMRC through the RTI system on a timely basis.

Payments which are impractical to report 'on or before'

HMRC have issued guidance covering issues such as payments made on the day of work (which vary depending on the work done) where it is impractical to report in real time. The regulations allow up to an additional seven days for reporting the payment in specified circumstances.

HMRC have also made available some guidance on exceptions to reporting PAYE information 'on or before' paying an employee which can be found at www.gov.uk/running-payroll/fps-afterpayday.

Penalties

Penalties apply where employers fail to meet their RTI filing and payment obligations. In essence, late filing penalties apply to each PAYE scheme, with the size of the penalty based on the number of employees in the scheme. Monthly penalties of between £100 and £400 may be applied to micro, small, medium and large employers as shown below:

- 1-9 employees - £100
- 50-249 employees - £300; and
- 250 or more employees - £400.

Each scheme is subject to only one late filing penalty each month regardless of the number of returns submitted late in the month. There will be one unpenalised default each year with all subsequent defaults attracting a penalty. Rather than issue late filing penalties automatically when a deadline is missed, HMRC has confirmed that they will 'take a more proportionate approach and concentrate on the more serious defaults on a risk-assessed basis'.

HMRC charges daily interest on all unpaid amounts from the due and payable date to the date of payment and will raise the charge when payment in full has been made. They may also charge penalties to employers who fail to pay their PAYE liabilities on time. These penalties are 'risk assessed' and range between 1% and 4% of the amounts paid late. The first late payment will not attract a penalty.

How we can help

The operation of PAYE under RTI can be a difficult and time-consuming procedure for those in business. We will be happy to show you how to operate PAYE correctly, offer ongoing advice on particular issues, or to carry out your payroll for you so please do contact us.
